

DS4L

Decision Science for Leaders

THE FUTURE IS NOW

The IDB's Decision Science for Leaders (DS4L) provides a hands-on approach to solving specific business problems with analytical insights to influence critical decision making. DS4L equips participants with both the hard and soft skills necessary to make decisions with data. Expert faculty and industry practitioners lead participants to analyze and interpret 21st century technology, help filter through the "white noise" of data overabundance and prescribe optimal action with speed. DS4L will allow participants to leverage the power of analytic tools to communicate with confidence.

ABOUT THE IDB

Programs offered by the IDB target leaders at all levels and multiple functional areas. They are designed to provide knowledge, skills, and tools to better equip leaders to implement impactful change. Some areas of study include strategy, innovation, risk management, contested logistics, data fluency, AI and critical thinking. Our programs educate, energize, and provide leaders with the intellectual capital critical to successful transformation.

WHO SHOULD ATTEND?

Public Sector: Company Grade Officers (O-2 to O-3), Warrant Officers (CWO2 to CWO3), Senior Non-Commissioned Officers (E-7 to E-8), and Civil Service Employees (GS-12 to GS-13)

Private Sector: Manager and Senior Manager Equivalents

NOTE: Targeted Audience is only a recommendation from our experience and all potential exceptions to attend can be submitted for review by our Team
