IBLDP

Industrial Base Leadership
Development Program

THE FUTURE IS NOW

IDB's IBLDP program is an intensive one-week experience designed to equip leaders with insights to address challenges and opportunities impacting the organic industrial base and Joint Force readiness. Focused on solving current and emerging readiness issues, the course offers a tailored learning environment for experienced leaders shaping strategy, funding, and policy across the industrial base, alongside private industry and sustainment partners. Outcomes include improved policy and operational alignment, unity of purpose, and adoption of best practices—building a confident, creative cadre of leaders prepared to strengthen materiel readiness across the enterprise. Participants leave with actionable strategies to drive collaboration and innovation across the entire industrial base.

ABOUT THE IDB

Programs offered by the IDB target leaders at all levels and multiple functional areas. They are designed to provide knowledge, skills, and tools to better equip leaders to implement impactful change. Some areas of study include strategy, innovation, risk management, contested logistics, data fluency, AI and critical thinking. Our programs educate, energize, and provide leaders with the intellectual capital critical to successful transformation.
