DEFENSE & BUSINESS

LOGTECH Executive

Program for Executives in Logistics and Technology

THE FUTURE IS NOW

Transform your organization's approach to technology and innovation across logistics and the supply chain. In this program designed for senior leaders in defense and business, you will learn new tools and techniques for innovative thinking. Return to your organization ready to implement strategic direction that leverages your people, processes, and technology to deliver effective, efficient logistics and supply chain capabilities. Collaborate with peers from diverse organizations across the public and private sector to address shared challenges from a big-picture perspective. Led by expert faculty and industry practitioners, you'll learn strategies for successful implementation and adoption of new technologies at the strategic and operational levels.

ABOUT THE IDB

Programs offered by the IDB target leaders at all levels and multiple functional areas. They are designed to provide knowledge, skills, and tools to better equip leaders to implement impactful change. Some areas of study include strategy, innovation, risk management, contested logistics, data fluency, AI and critical thinking. Our programs educate, energize, and provide leaders with the intellectual capital critical to successful transformation.
